INDEX

Alkaline phosphatase electrophoresis, the clinical application of, 17.
Anaemia, haemolytic, in acute and chronic renal failure, 85.
Anaemia, mechanism of, in tropical splenomegaly, 337.
Assessment of 5′-nucleotidase as a liver-function test, 457.
Association of Physicians of Gt. Britain and Ireland, 597.

Bacterial endocarditis, sterile blood culture in, 167.

Calcium metabolism, observations on, in the nephrotic syndrome, 301.
Carbon monoxide poisoning, neurological complications of, 445.
Chromophobe adenomas, untreated, endocrine function in patients with, 357.
Clinical application of alkaline phosphatase electrophoresis, 17.
Cortico-steroid-induced suppression of hypothalamo-pituitary-adrenal axis: observations on patients given oral corticosteroids for rheumatoid arthritis, 261.
Coxsackie B5 infections in Essex in 1965 with particular reference to the nervous system, 579.

Dementia and folate deficiency, 189.
Diagnosis and management of patients with xanthomatosis, 107.
Dialysis, uraemic bleeding: a reversible platelet defect corrected by, 409.
Dietary treatment of acute renal failure, 59.

Effects of heatstroke on the function and structure of the kidney, 277.
Effects of hyperthyroidism on bone and mineral metabolism in man, 1.
Endocrine function in patients with untreated chromophobe adenomas, 357.
Endomycardial fibrosis and filariasis, 495.

Filariasis, endomycardial fibrosis and, 495.
Folate deficiency, dementia and, 189.

Gastrectomy, partial, protein malnutrition after, 469.
Genetic and non-genetic factors in simple goitre formation: evidence from a twin study, 175.
Goitre formation, simple, genetic, and non-genetic factors in, 175.

Haematuria, a syndrome of loin pain and, associated with disease of peripheral renal arteries, 253.
Haemolytic anaemia in acute and chronic renal failure, 85.
Heatstroke, effects of, on function and structure of kidney, 277.
Heatstroke, its clinical picture and mechanism in 36 cases, 525.
Hypertension in the young, 549.
Hyperthyroidism, effects of, on bone and mineral metabolism in man, 1.
Hypertrophic neuropathy, 223.
Hypothalamo-pituitary-adrenal axis, corticosteroid-induced suppression of, 261.

Idiopathic steatorrhoea, a study of proximal and distal intestinal structure and absorptive function in, 425.
Iron absorption and siderosis in chronic liver disease, 151.
Ischaemic lesions of the spinal cord: an illustrated review, 205.

Kidney, effects of heatstroke on function and structure of, 277.

Liver disease, chronic, iron absorption and siderosis in, 151.
Liver disease, chronic neuro-psychiatric syndromes associated with, 135.
Liver, ultrasonic scanning of, 517.
Liver-function test, assessment of 5′-nucleotidase as, 457.

McArdle's syndrome: myophosphorylase deficiency, 565.
Malnutrition, protein, after partial gastrectomy, 469.
Mechanism of anaemia in tropical splenomegaly, 337.
Mineral metabolism, effects of hyperthyroidism on bone and, in man, 1.

Myophosphorylase deficiency, McArdle's syndrome, 565.

Nephrotic syndrome, observations on calcium metabolism in, 301.
Nephrotic syndrome in Uganda and its association with quartan malaria, 393.
Neurological complications of carbon monoxide poisoning, 445.
Neuropathy, hypertrophic, 223.
Neuro-psychiatric syndromes associated with chronic liver disease and an extensive portal-systemic collateral circulation, 135.
5′-Nucleotidase, assessment of, as liver-function test, 457.

Observations on calcium metabolism in the nephrotic syndrome, 301.

Platelet defect, reversible, corrected by dialysis, in uraemic bleeding, 409.
Porphyria and photosensitivity, 29.
Protein malnutrition after partial gastrectomy, 469.
Pulmonary infections and rheumatoid arthritis, 239.

Quartan malaria, nephrotic syndrome in Uganda associated with, 393.

Renal arteries, peripheral, a syndrome of loin pain and haematuria associated with disease of, 253.
Renal failure, acute, dietary treatment of, 59.
Renal failure, chronic and acute, haemolytic anaemia in, 85.
Rheumatoid arthritis, pulmonary infections and, 239.
Rheumatoid arthritis, suppression of hypothalamo-pituitary-adrenal axis in patients given oral corticosteroids for, 261.

Scanning, ultrasonic, of the liver, 517.
Siderosis, iron absorption and, in chronic liver disease, 151.
Spinal cord, ischaemic lesions of, 205.
Splenomegaly, tropical, in New Guinea, 321.
Steatorrhoea, idiopathic, proximal and distal intestinal structure and absorptive function in, 425.
Sterile blood cultures in bacterial endocarditis, 167.
Syndrome of loin pain and haematuria associated with disease of peripheral renal arteries, 253.

Treatment, dietary, of acute renal failure, 59.
Tropical splenomegaly in New Guinea, 321.

Ultrasonic scanning of the liver, 517.
Uraemic bleeding: a reversible platelet defect corrected by dialysis, 409.

Xanthomatosis, diagnosis and management of patient with, 107.
